Service Types : Community Development & Other Services - Community Development Services and Community Centres

社區裡的花園 為生活添上繽紛色彩

陳鳳儀從前是為照顧家庭奔波的主婦，子女長大後，終有空閒時間發展自己對種植的興趣。鳳儀經朋友介紹，得知香港仔坊會社會服務社區中心於華富邨的社區花園推行由公益金資助的「城市綠洲 (優化) 計劃」，於花園內舉辦園圃種植活動，為區內居民提供種植場地，居於附近的她毫不猶疑地參與計劃。

參與計劃已6年的鳳儀，在園圃人士及花園職員的教導下，對種植的興趣日益濃厚，知識亦增進不少，更認識到一班志同道合的朋友一起研究種植技巧。收成的一刻，她獲得的滿足感難以用筆墨形容。鳳儀的家人亦會一起參與種植活動，家人間話題增多，生活亦變得更和諧和幸福。

為了讓更多人認識社區花園及種植的樂趣，她更積極擔任社區花園的義務導賞員，並參與各項培苗及社區贈送植物等推廣活動，希望把更多環保、綠化、可持續發展的訊息傳遞予社區人士，讓大家的的生活有如花園盛放的花朵一樣色彩繽紛、多姿多彩。

Community Gardens Blossom Colours to life

Chan Fung-ye used to be a housewife devoted to taking care of her family. As her kids grown up, she finally has time to develop her interest in planting. When she learned that Aberdeen Kai-fong Welfare Association Social Service Community Centre launched the "Enhance Urban Green Project" with a community garden in Wah Fu Estate, she joined the project without hesitation. With the Chest's subvention, the project organised different gardening activities and provide planting sites for the residents nearby.

Fung-ye has been participating in the project for 6 years. She has gained much knowledge in planting under the guidance of growers and gardeners, and met friends who share the same interest. The satisfaction she gained at the moment of harvest was beyond words. Fung Yee's family also participated in the planting activities together, which brought happiness and harmony to the family.

In order to promote the community garden and fun of planting, she actively served as a volunteer docent of the garden. She also participated in educating and distributing plants to the community, hoping to blossom colours to the community and most importantly to transmit the messages of environmental protection, greening, and sustainable development to the public.
